Fortifying Shampoo (Dry Hair)

A protective layer covers the hair, and this layer of sebum is secreted from the sebaceous glands. When this substance not to be produced in sufficient quantities, Keratin (the first constituent of hair) loses it's water. Then, this leads to dry hair. Some people have dry hair. Therefore, these people have more brittle and damaged hair. This shampoo by having well-known active ingredients, is designed to strengthen the hair, and can be effective for brittle and damaged hair.

Fortifying Shampoo (Oily Hair)

Sebum is produced by sebaceous glands. In some cases, the excessive secretion of sebum in the glands makes hair greasy. As a result, hair is attached to the scalp, and the appearance of hair becomes bad. Hair loss, dandruff and skin infections are other complications of the excessive secretion of sebum. This shampoo for oily hair is designed in order to boost the hair, and regulates sebum production by sebaceous glands.
